The **USB-50** professional on-hold digital audio player is truly state-of-the-art. Its industrial-designed, extruded aluminum case is designed to protect your unit for many years of reliable service. Carefully selected electronics provide the best digital sound quality, and our auto-restart feature protects your audio files in the event of a power failure. Stored audio files play in alphanumeric order based on filenames, so organizing your content is a snap. The **USB-50** carries a 5 year parts-and-labor warranty.
